VALUED PARTNER

KENNEDY VALVE

Providing Quality "Made In USA" Products
Since 1907

During the decade of the 1980's, the waterworks industry was introduced to the Resilient Seat Gate Valve, a design principal that is dominant in preference for use in distribution systems. Kennedy Valve Company is in the forefront in this industry. They offer valves spanning a range of 2" TO 54".

Contact us today to discuss your need.

Fire hydrants have been used for over 100 years. Kennedy has established themselves as leaders in the industry with manufacturing experience dating back to 1905. The most recent design, The Guardian, is based on a simple design that is easy to install, maintain and repair. The Guardian meets and exceeds AWWA C502 and is UL and FM approved.
