Hydro-Guard® Improves Water Quality and Saves Man-Hours for Central Texas Vacation Community

In this latest case study from Mueller Co., the City of Horseshoe Bay, Texas reports labor cost savings after installing 10 Hydro-Guard® HG-1 Signature automatic flushing units and 7 Safety-Guard® sampling stations. According to Steve Hawley, Plant Operations Supervisor, "We've freed up man-hours and seen improvement in trouble areas. In some areas, a single HG-1 is saving us four to five hours of labor every week." To review the entire case study, please visit www.muellercompany.com. To learn about the many benefits of automated flushing systems, please visit www.hydro-guard.com.

Mueller App Now Available

On February 18, Mueller Co. released an app that features competitive cross reference for service brass, project-specific certification requests, and resource links. The app – available from the Apple App and Google Play stores – is designed for distributors but engineers and water utilities will find it handy as well. To add to your smart phone, simply scan these QR codes or search for "Mueller Co" in the app store and download for free.

FEATURED PRODUCT

BEACON AMA is a simple and innovative ASSET MANAGEMENT TOOL that enables two way communication virtually anywhere and gives water utilities the information and analytics they need without the time and expense of managing their own fixed network system.

With all of these features and benefits BEACON AMA is the “clearly better “ solution.

Advantages

- With access to timely information, respond to customer needs more efficiently-resolve billing issues quickly. Analyze usage profiles over selected time periods and rapidly respond to customer inquiries.
- Improve your process and access information easily on user friendly intuitive screens. The software supports increased profitability by efficiently importing and exporting billing.
- Set leak detection alerts and thresholds to quickly understand where problems are occurring and to monitor water use.
- Give your customers the tools to easily view and understand their water usage through EyeOnWater Online (desktop app) EyeOnWaterApp (smartphone/tablet), EyeOnWater eSummary (email notification) or EyeOnWater Summary (printed).
- Streamline and easily compile data for ever-changing regulatory compliance reporting by configuring a variety of reports to actively monitor your overall system usage.
