At the **McWane Family of Companies**, we cast ductile iron products — including pipe, valves, hydrants, fittings, and

plumbing products — manufacture fire extinguishers, fire suppression systems, steel pressure vessels, and build network switches and monitoring equipment.

For generations, Tyler Union has been a global leader in manufacturing quality products for the waterworks industry. From wholly owned production facilities in Anniston, AL and the Hebei province of China, Tyler Union provides a broad range of domestic and import waterworks products.

KENNEDY VALVE

Kennedy is a nationally recognized producer of AWWA Resilient Seat Gate Valves, Fire Hydrants, and Check Valves, for municipal water distribution systems and water and wastewater treatment facilities and a variety of ULFM Fire Protection

products as well as providing AWWA Butterfly Valves and Plugs Valves manufactured by sister companies Clow and M&H.

From its establishment in 1921 Bibby-Ste-Croix have supplied roadway and valve boxes from 1" TO 7". Commited to the environment 100% of its gray and 80% of its ductile iron products are from recycle metal. A strong smart choice.

M&H Valve's Resilient Seated Gate Valve line meets or exceeds AWWA C509/AWWA C515. Our valves have a durable fusion-bonded epoxy coating both inside and out that complies with ANSI/AWWA C550 and provides unexcelled abrasion and corrosion protection.

Imagine a Day Without Water
October 12, 2017

On **October 12, 2017**, hundreds of organizations across the country--from water and wastewater utilities to local businesses and community groups--will participate in the third annual Imagine A Day Without Water. Will you join the Value of Water Campaign to raise awareness and educate America about the value of water? **Register today**!

Why should you participate? We all need safe and reliable water to ensure that we can go about our daily lives without interruption. Our nation's **water infrastructure is aging and in need of investment**--and when our water is at risk, we are all at risk. Far too many communities in America already know how impossible it is to

imagine a day without water.

Participants include a wide range of organizations committed to educating policymakers and the public about the value of water to our economy, environment, and daily lives. **Learn more** about how your organization can participate in this national day of education and awareness.
